

TYPOGRAPHY

MAJOR TASK

Using what you have learnt so far about the characteristics of type, the families of type and how to combine type with or within imagery, you are required to create an A3 artwork focusing on TYPE. You are not limited to what you can create as long as it focuses on TYPE.

The following are some suggestions and examples but you can be as creative as you like with any material of your choice. This is the major task associated with this outcome so a high quality artwork is expected. You will be assessed on your use of Type, elements and principles, as well as the overall aesthetics.

Suggestions:

Create your own FONT

Create your own Monogram- a motif of two or more interwoven letters, typically a person's initials, used to identify a personal possession or as a logo.

Create your own image out of words or letters

Create your own logo focusing on TYPE

Create your own inspirational poster focusing on TYPE

In other words you can create any artwork as long as it focuses on
yes you guessed it **TYPE**
